

Revstar Part 2

Choose Your Tone, Expand Your Playing

The new generation of Revstar guitars offer three different grades and two pickup configurations, featuring a versatile switching system and new finishes inspired by custom motorcycles. In this article, we'll explore what makes the Revstar lineup special and help you find the perfect match for your sound and style.

Explore Revstar's Three Grades - Choose, Play, Enjoy

Since its debut in 2016, the original Revstar has been embraced by guitarists worldwide, thanks to its distinctive **design*** and Yamaha's unique "**Acoustic Design**"** process. After extensive feedback and the evolving needs of guitarists, Revstar has undergone a complete redesign, giving rise to the new generation with three distinct tiers. Here's what sets each grade apart. *See Stories Behind the Gear Vol17,18,19

ELEMENT

Ready for the Next Stage?
Your Second Guitar Awaits

- Chambered body for rich resonance
- Dry Switch for a brighter tone

STANDARD

Two Revstar Pickup Options Choose Your Tone, Expand Your Play

*For Standard, Professional

The new Revstar offers three grades and two pickup options, giving you the flexibility to shape your sound. Yamaha developed each model's pickups with meticulous care, crafting over 50 prototypes for the Revstar line. Discover the tonal differences between the two pickups and find the one that suits your style best.

HUMBUCKER

RSP20/RSP20X/RSS20/RSS20L

The four models above feature humbucker pickups

The humbuckers were redesigned for **brighter highs**, using nickel-silver base plates and heavy formvar wire for a **powerful, crisp and clear** tone.

P-90

RSP02T/RSS02T

The two models above feature P-90 style pickups

The P-90 retains its original design by popular demand, featuring a resin baseplate and plain enamel wire for a **thick, punchy** tone with crisp articulation.

Explore Revstar's Vibrant Colors

The new-generation Revstar has been completely reimagined—both in sound and appearance—to **reflect its sonic evolution**. Compared to the original, it features more vibrant colors, bold stripe contrasts, and subtle gradient accents that **visually express** clarity and definition in tone. Unique finishes such as Swift Blue, Flash Green, and Neon Yellow add personality, while vertical stripes and gradient details create a striking, modern aesthetic. Explore the lineup and find the one that perfectly matches your style.
