

Previous Nuage Master Firmware **version information**

V1.06

New Functions

- Now supports new functions in TOOLS for NUAGE V1.7.0.

V1.05

Fixed Bug

- Solved some minor problems.

1.04

Fixed Bug

- Solved a problem in which the Select Track pop-up window of the DAW A may have been displayed when DAW B or DAW C was operated by using NUMERIC PAD.

1.03

New Functions

- Now supports new functions in TOOLS for NUAGE V1.1.0.

Notice

- Pan control is available only between left and right if the Stereo Combined Panner or the Surround Panner is assigned for the send section. In such a case, please control it from the Channel settings in Nuendo.
